## **AVIATION MAINTENANCE OFFICER**

### **EXECUTIVE SUMMARY**

This Navy Training System Plan (NTSP) was developed by the Naval Air Systems Command in accordance with the Navy Training Requirements Documentation Manual. This NTSP is intended for use as a planning document and provides summaries on manpower and training requirements. It will also help in determining programming for out-year personnel, training requirements, and the capability of these personnel to support billet requirements. This NTSP consolidates the technical elements of Aviation Maintenance Officer (AMO) training and serves as the Navy's official statement for manpower, personnel, and training requirements.

The Aviation Maintenance Officer training concept integrates existing officer training with training developed for Aviation Maintenance Officer Career Progression training. Cumulatively, these courses create a training path that begins immediately following accession training and culminates in specialized training in preparation for increased levels of responsibility and authority associated with aviation management. The Aviation Maintenance Officer community is comprised of Aviation Maintenance Duty Officers, Aviation Maintenance Limited Duty Officers, Chief Warrant Officers, Selected Reserve, Training and Administration of the Naval Reserve Officers, United States Marine Corps Officers (both active and reserve with Military Occupational Specialty 6002, 6004, or 6302), Naval Air Systems Command interns, and foreign officers.

A new Advanced Aviation Maintenance Management Continuum (A2M2) course targeted toward O-4 and O-4 selected personnel is being developed under the direction of OPNAV N789. Course development is scheduled to be completed in Fiscal Year 03.

There are no increases in manpower associated with this NTSP. Courses that currently support the Aviation Maintenance Officer continuum are taught at the Naval Aviation Schools Command, Pensacola, Florida; Naval Supply Corps School, Athens, Georgia; and Defense Systems Management College, Fort Belvoir, Virginia.

## **AVIATION MAINTENANCE OFFICER**

### **PREFACE**

This third iteration Proposed Navy Training System Plan (NTSP) for the Aviation Maintenance Officer (AMO) Career Progression Training has been prepared in accordance with the guidelines set forth in the Navy Training Requirements Documentation Manual, Office of the Chief of Naval Operations (OPNAV) Publication P-751-1-9-97, to update the previous proposed edition, Aviation Maintenance Officer Career Progression Training NTSP, A-50-9505/P, dated November 1997.

The primary purpose of this NTSP is to support the Naval Aviation Maintenance Program (NAMP) Indoctrination, NAMP Management, and Advanced Aviation Maintenance Management (A2M2) courses, Course Identification Numbers (CIN): Q-4D-2010, Q-4D-2011, and C-4D-2001. Additionally, this NTSP identifies other recommended and optional training available to the AMO community.

Changes in this NTSP include updating all parts of the document with the most current information, and creating Parts II.A.1.a and II.A.1.b.

### D. SYSTEM DESCRIPTION

**1. Operational Uses.** The purpose of the AMO Career Progression Training is to:

- Raise the competency level of officers filling Aviation Maintenance Management billets ashore and afloat.
- Decrease the time from initial designation to peak productivity.
- Prepare AMOs for positions of increased authority and responsibility.

## **2. Foreign Military Sales. NA**

## **E. DEVELOPMENTAL TEST AND OPERATIONAL TEST. NA**

## **F. AIRCRAFT AND/OR EQUIPMENT/SYSTEM/SUBSYSTEM REPLACED. NA**

## **G. DESCRIPTION OF NEW DEVELOPMENT**

**1. Functional Description.** This NTSP is the single document that consolidates the technical elements of Aviation Ground Maintenance Officer training. Specifically, AMO Career Development is designed to integrate existing and proposed training to establish a training continuum that begins immediately following accession training and culminates with specialized training in preparation for the increased levels of responsibility and authority associated with career progression.

### **2. Physical Description. NA**

### **3. New Development Introduction. NA**

**4. Significant Interfaces.** Interface with and impacts on other systems are limited to the interaction between the AMO and Unrestricted Line (URL) communities insofar as officer assignments are concerned.

**5. New Features, Configurations, or Material.** Both the NAMP Indoctrination Course and NAMP Management Course managers must procure and maintain interactive Compact Disc-Read Only Memory (CD-ROM) capability. To meet the needs of the fleet by teaching the latest in technological advances, the AMO School must pursue and obtain the latest media access technology available. The Office of the Chief of Naval Operations Instruction (OPNAVINST) 4790.2H is distributed to the fleet in CD-ROM format. Additionally, most upper echelon chain of command instructions and AMO related publications are, or will soon be, available only on CD-ROM. The implementation of CD-ROM technology in the classrooms will ensure that students receive the most current information available and the necessary skills to access that information. In keeping with changes in technology and fleet requirements, AMO schools will use Technical Training Equipment (TTE) to teach Automated Technical Information System (ATIS), Naval Aviation Logistics Command Management Information System (NALCOMIS), and how to access information using CD-ROM.

Additionally, integration of computerized video presentation capabilities will allow instructors to be more innovative with instructional media. The students can view color interactive slides, and the instructor may interject relevant video at any point desired within the presentation.

These training hardware requirements are listed in element IV.A.1 as TTE.

## H. CONCEPTS

### 1. Operational Concept. NA

### 2. Maintenance Concept. NA

**3. Manning Concept.** This NTSP does not impact the number of approved or projected billets in operational Navy units. Students attending AMO training will include Navy and United States Marine Corps (USMC) officers with the following Navy Officer Billet Codes (NOBC) or Military Occupational Specialties (MOS):

NOBC	NAVY OFFICER BILLET CODE TITLE
152X	Aviation Maintenance Duty Officer
6330	Limited Duty Officer (LDO) (Aviation Maintenance)
6380	LDO (Avionics)
7340	Chief Warrant Officer (CWO) (Aviation Maintenance Technician)
7380	CWO (Aviation Electronics Technician)

MOS	USMC MILITARY OCCUPATIONAL SPECIALTY TITLE
6002	Aircraft Maintenance Officer
6004	Aircraft Maintenance Engineer Officer
6302	Avionics Officer

**4. Training Concept.** AMO Career Progression Training is intended to build incrementally on previously acquired skills and provide a graduated educational and professional career development path for Aviation Maintenance Ground Officers including:

- Aviation Maintenance Officers, both active and reserve, with NOBC 152X
- Aviation Maintenance LDOs and CWOs with NOBC 6330, 6380, 7340, and 7380

- USMC Aircraft Maintenance Officers, both active and reserve, with MOSs 6002 or 6004
- Avionics Officers with MOS 6302
- Naval Air Systems Command (NAVAIRSYSCOM) Interns
- Foreign Officers

Additionally, Appendix A describes applicable educational opportunities available.

Typical AMO Career Paths are defined and illustrated in Appendices B through I. The billets shown are representative of billets to which AMOs may be assigned. Assignment or lack of assignment to one or more of these billets does not ensure promotion or failure to be promoted. The AMO Career Training Path is graphically illustrated in Figure I-1, page I-13.

This progressive, non-repetitive training begins immediately after accession followed by the first AMO tour of duty. Upon completion of their first tour, AMOs should attend Level II training en route or during their second or third tour assignment. Level III progressive training should be completed before commencement of the fourth tour. All training should be provided en route to coincide with Permanent Change of Station (PCS), per standard officer personnel distribution policies. However, routinely as many as half of the students are non-chargeable (i.e., Temporary Additional Duty (TAD)). The Naval Aviation Schools Command (NAVAVSCOLSCOM) is the sole source for quota control.

A new Advanced Aviation Maintenance Management Continuum course, targeted toward O-4 and O-4 selected personnel, is being developed under the direction of OPNAV N789. Course development is scheduled for completion in Fiscal Year (FY) 03. When more information concerning this new course becomes available, it will be included in updates to this NTSP.

**a. Initial Training.** NA

**b. Follow-on Training.** A two-part modular training syllabus has been developed for each of the four basic levels of training. Level I consists of prerequisite training required for Aviation Maintenance Officers prior to Level II training. Level II contains technical training.

**1. Manufacturer and Contract Numbers.** This NTSP does not support a specific weapon system. Therefore, Integrated Logistics Support (ILS) products normally derived from MIL-STD-1388 were not available to establish the level and extent of the training required. To ensure the courses described herein meet current Fleet, Force, and Shore established requirements, a Human Performance Requirements Review (HPRR) will be convened (per OPNAVINST 1500.1H) prior to each NTSP conference. The purpose of the HPRR is to identify required changes to existing training and validate additional training requirements for the AMO community.

## **APPENDIX A**

### **OTHER APPLICABLE EDUCATIONAL OPPORTUNITIES**

This Appendix was developed to include information concerning additional formal and informal educational opportunities available to the AMO, such as:

- Naval Postgraduate School
- Naval War College (resident, non-resident seminar, and correspondence)
- Air Force Institute of Technology
- National Defense University (Industrial College of the Armed Forces) (resident or non-resident)
- Naval Aviation Executive Institute
- Defense System Management College
- Defense System Management College Research Fellowship Program
- International Logistics Management Professional Enhancement Program (ILMPEP)
- Procurement Intern Management Enhancement (PRIME) Program
- Graduate Level Tuition Assistance
- Advanced Education Program
- College Degree Program (CDP)
- Prospective Aircraft Intermediate Maintenance Department (AIMD) Officer Conference
- Fleet Aviation Specialized Operational Training Group (FASOTRAGRU)  
Courses:
  - Naval Aviation Maintenance Logs and Records Management (D/E-555-0005)
  - Aeronautical Technical Publications Library Management (D/E-555-0007)
  - Individual Material Readiness List (IMRL) (D/E-555-0001)
  - Naval Aviation Material Control Management (D/E-555-0003)
  - Naval Aviation Logistics Command Management Information System Introduction and Terminal Operations (D/E-555-0020)
  - Aircraft Intermediate Maintenance Department (AIMD) Familiarization (D/E-555-0009)
  - Naval Aviation Visual Information Display System/Maintenance Action Form (VIDS/MAF) and Subsystem Capability and Impact Reporting (SCIR) Documentation (D/E-555-0008)

## APPENDIX A

### OTHER APPLICABLE EDUCATIONAL OPPORTUNITIES

- Naval Aviation Quality Assurance Administration (D/E-555-0006)
- Naval Aviation Maintenance Control Administration (D/E-555-0003)
- o Naval Air Maintenance Training Group Detachment (NAMTRAGRU DET) and Naval Air Maintenance Training Unit (NAMTRAU) Course:
  - Corrosion Control (Airframes Division Officers)
- o Correspondence Courses: as applicable

In addition to the formal training established in this NTSP, other formal and informal educational opportunities are available to the AMO. This training consists of resident and non-resident programs, correspondence courses, independent studies, and conferences. The following paragraphs contain general information concerning the available educational opportunities.

**Naval Postgraduate School.** The NAVPGSCOL offers Masters level programs in Material Logistics Management, Computer Systems Management, and Aeronautical Engineering. This graduate program is normally completed in a one to two-year tour. Assignment to NAVPGSCOL is made through a selection board that convenes annually.

**Naval War College.** Attendance at Naval War College (NWC) is designed to broaden officers' military education, prepare the officers for increased responsibilities in future assignments, and provide increased effectiveness in senior billets in Fleet Commander and Type Commander staffs. Officers are selected to attend service college as an adjunct to the promotion board in which they are in-zone for Lieutenant Commander (Junior Service College) and Commander (Senior Service College). Navy officers selected to Captain are automatically selected as eligible for service college. Selection is effective until the officer is in-zone for promotion to the next higher grade. AMOs (O-3 and above) may also earn their diploma as non-residents through the College for Continuing Education by attending local seminars, completing correspondence courses, or a combination of the two.

**Air Force Institute of Technology.** The Air Force Institute of Technology (AFIT) offers a 15-month graduate degree in Logistics Management that is comparable to the NAVPGSCOL Material Logistics Management Course. In addition, AFIT offers a 10-day Applied Maintenance Management Concepts Course designed for organizational and intermediate level maintenance managers reflecting DoD perspective.

**National Defense University.** Aeronautical Maintenance Duty Officer Commanders are eligible for selection to attend the Industrial College of the Armed Forces (ICAF) under the auspices of the National Defense University (NDU). The ICAF's mission is to conduct senior level courses of study and associated research in the management of resources in the interest of national security. The ICAF is a 10-month resident program. AMO O-5 and above (and O-4 officers who have completed an intermediate level command and staff course) may complete a National

## APPENDIX A

### OTHER APPLICABLE EDUCATIONAL OPPORTUNITIES

Security Management correspondence course which covers many of the same topics as the NWC and ICAF, with emphasis on the formulation of defense and foreign policy. Course options include a program of individual study designed to be completed in 16 months (or 21 months overseas) and seminar programs of one or two-years duration for Washington, D.C., participants.

**Naval Aviation Executive Institute.** The Naval Aviation Executive Institute (NAEI) provides neither technical instruction nor skill training but rather a series of developmental experiences designed to broaden awareness of the social, political, and economic forces that transcend organizational boundaries. Various offerings are available to different levels of management. One course particularly valuable to newcomers is entitled “The Washington Arena.” Officers assigned to NAVAIR and its field activities are eligible for NAEI opportunities.

**Defense Systems Management College.** The Defense Systems Management College (DSMC), located at Fort Belvoir, Virginia, offers a wide variety of courses both on campus and at regional centers such as St. Louis, Missouri; Huntsville, Alabama; Los Angeles, California; and Boston, Massachusetts. DSMC focuses on improving the systems acquisition course management process through research, providing information, and training leaders who will participate in directing weapon systems total life cycles. In addition to the Program Management Course (required for those heading to acquisition jobs), the DSMC offers the following courses:

- Contract Finance for Program Managers
- Contract Management for Program Managers
- Contractor Performance Measurement
- Defense Manufacturing Management
- Executive Management
- Executive Refresher
- Fundamentals of Systems Acquisition Management
- Management of Acquisition Logistics
- Management of Software Acquisition Funds Management
- Systems Engineering Management
- Test and Evaluation Management
- Total Quality Management

**Defense System Management College Research Fellowship Program.** The object of this 11-month program is to provide Commanders (O-5) and above with Senior Service College equivalency through a professional military educational experience and increase opportunities for new and creative approaches to systems acquisition management.

**International Logistics Management Professional Enhancement Program.** This 12-month program is intended for O-4s and O-5s involved with international logistics issues. The objective of ILMPEP is to improve the management of DoD international logistics programs by broadening the background of career professionals.

## APPENDIX A

### OTHER APPLICABLE EDUCATIONAL OPPORTUNITIES

**Procurement Intern Management Enhancement Program.** PRIME is a one-year program for O-4s and O-5s with previous acquisition experience. The program is designed to form a basis for improved management of DoD procurement programs through cross training for career professionals with top management potential.

**Graduate Level Tuition Assistance.** Officers seeking a graduate level education may pursue it in any academic discipline including one not directly related to a Navy specific subspecialty. Although officers no longer need NAVPGSCOL approval, the school should be consulted to ensure a subspecialty will be awarded. Officers taking advantage of tuition assistance will incur a two-year service obligation.

**Advanced Education Program.** The Advanced Education Program (AEP) provides an opportunity for AMOs (O-2 through O-4) to participate in full-time, personally funded graduate education, (LDOs are not eligible for this program). Officers must apply per OPNAVINST 1520.30 and are selected for participation by a board. Officers may use tuition assistance or the GI Bill. Further details are available in the instruction.

**College Degree Program.** Officers must apply and be selected for this opportunity to pursue a baccalaureate degree through full time study at an accredited civilian educational institution. Officers receive regular pay and allowances; school expenses are the member's responsibility, but may be paid by GI Bill or tuition assistance.

**Prospective AIMD Officers Conference.** Each year, a one-week conference is held to assist prospective AIMD officers in preparing for their upcoming roles. The conference consists of a series of presentations to stimulate discussion. The prospective AIMD officer is expected to build on the knowledge and development gained from attendance at the Aerospace Maintenance Institute.

**Fleet Aviation Specialized Operational Training Group Courses.** FASOTRAGRU provide training in administrative areas, including logs and records, technical publications library, Individual Material Readiness Lists, material control, Division/Branch Officer, AIMD Division Officer, quality assurance, administration, and maintenance control. Quotas are obtained through command training officers.

**Naval Aviation Maintenance Training Group Detachment Courses.** A two-day Corrosion Control (Basic) course is designed to familiarize junior officers with corrosion identification and prevention. Aircraft specific familiarization and technical courses may be offered by some NAMTRAUs and NAMTRAGRU DETs.

**Correspondence Courses.** Navy correspondence courses such as Navy Regulations, Uniform Code of Military Justice, and Joint Travel Regulations are recommended for junior officers. Information on these and other applicable courses is available through the Command Educational Services Office.

## **APPENDIX A**

### **OTHER APPLICABLE EDUCATIONAL OPPORTUNITIES**

**Aviation Maintenance Officer Personnel Qualifications Standards.** The AMO Personnel Qualifications Standards (PQS) is intended to provide a framework that AMOs can use to enhance their job related expertise. Each line item in the PQS reflects a skill determined to be necessary in fulfilling the responsibilities of the various billets to which AMOs are assigned. Some of the line items have been covered in the basic courses and are included in the PQS to indicate a need to reinforce the material. Some items, not covered in the basic courses, but considered to cover vital skills, can be learned on the job through personal effort. Each officer completing the basic course receives a PQS for use, as he or she desires. Preliminary drafts of the new AMO PQS are complete and are currently available.

**COMMENTS / RECOMMENDATIONS ON THE  
AVIATION MAINTENANCE OFFICER  
PROPOSED NAVY TRAINING SYSTEM PLAN**

**ACTIVITY NAME:** Chief of Naval Education and Training (ETS3)

**COMMENT:** Title Page, throughout NTSP

Need to change the title. Aerospace Maintenance Duty Officer implies this covers only USN designator 152X, and not USN LDO/CWO or USMC Officers. Recommend use the more generic "Aviation Maintenance Officer" title rather than using a community name.

**INCORPORATED:** Yes

**REMARKS:** Change was incorporated with the list of changes submitted by OPNAV.

**COMMENT:** General

Should we include the new AMO PQS, and if so, where does it fit in?

**INCORPORATED:** Yes

**REMARKS:** A-5 referenced a JQR, which doesn't exist. Information on the new AMO PQS has been added.

**COMMENT:** Page viii, throughout NTSP

The SAMO course (Q-4D-2012) was cancelled 19 October 2000. CNO N789H ltr ser NT89H3/OU662880 refers. Recommend delete all references to the SAMO course from the NTSP; add the proposed A2M2 course and indicate it is under development.

**INCORPORATED:** Yes

**REMARKS:** Change was incorporated with the list of changes submitted by OPNAV.

**COMMENTS / RECOMMENDATIONS ON THE  
AVIATION MAINTENANCE OFFICER  
PROPOSED NAVY TRAINING SYSTEM PLAN**

**COMMENT:** Page I-2

1. Paragraph 5 refers to NAMP Indoctrination Course managers. This applies to the NAMP Management Course also, so this paragraph should list both.
2. It appears that the intent is for a considerable portion of the formal platform-based training to be delivered by CD-ROM based technology. This is an excellent use for the media. Presuming that frequent changes are a fact of life for the AMDO, an even better choice would be a centrally hosted information base accessible via the Internet. Thus, as information updates are incorporated into the central data base, all AMDO preparing for a course of instruction, or using the material as an original source or refresher training on the job all have access to the latest information.

**INCORPORATED:** 1. Yes, 2. No

**REMARKS:** 2. LCDR Grossman (CNO N789H1) recommended information should be left as is for time being.

**COMMENT:** Page I-5 and I-6

Should "Weight and Balance" be added to the list of Level I training? This is a significant and important part of the curriculum, and is equivalent to the FASO Weight and Balance course.

**INCORPORATED:** Yes

**REMARKS:** Included in Level I training courses.

**COMMENT:** Page I-8

Replace SAMO "Level III training" with proposed A2M2.

**INCORPORATED:** Yes

**REMARKS:** Change was incorporated with the list of changes submitted by OPNAV.

**COMMENT:** Pages I-8 to I-11

Need to review the required DAWIA/DAU courses. What is the primary Career Field Certification focus? To which level should officers be certified (level 2 or 3)? The NTSP should state the specific career field(s) we want our officers to work towards, and list all the DAWIA courses required for those specific career fields.

**COMMENT:** Page I-14, paragraph M

Why is the AOOCP listed as related training?

**INCORPORATED:** Yes

**REMARKS:** Removed

**COMMENT:** Page II-91

Instructor billets:

1. LDO Supply Officer (6510) not listed.
2. AKCS is now SKCS (rating merger June 2001).
3. AZ2 billet should have NEC 6315 (per AMD).

**INCORPORATED:** Yes

**REMARKS:** None

**COMMENT:** Page II-92, paragraph II.A.4

1. NAVAVSCOLSCOM UIC is 62229.
2. Chargeable student billets looks incorrect. How are the numbers computed? Who determines them? Currently graduate approximately 40 1520s/year, 25+ USMC 6004, 30+ USN LDO/CWO

**INCORPORATED:** Yes

**REMARKS:** Figures determined by using current NITRAS data. Updated accordingly with current information.

**COMMENTS / RECOMMENDATIONS ON THE  
AVIATION MAINTENANCE OFFICER  
PROPOSED NAVY TRAINING SYSTEM PLAN**

**COMMENT:** Page II-95

Similar to my concern with paragraph II.A.4 – who computes these numbers? A maximum of 20 NAVAIR Interns attend per year, and that is all that AIR 3.0C plans for.

**INCORPORATED:** Yes

**REMARKS:** Figures determined by using current NITRAS data. Updated accordingly with current information.

**COMMENT:** Page III-2

Delete reference to SAMO course and replace with proposed A2M2.

**INCORPORATED:** Yes

**REMARKS:** Change was incorporated with the list of changes submitted by OPNAV.

**COMMENT:** Page III-3

USMC Officers does not refer to MOS 6004.

**INCORPORATED:** Yes

**REMARKS:** None

**COMMENT:** Pages IV-2 to IV-4

Need to update training hardware. AMO School received new equipment in 2000/2001. This list does not reflect what is on hand or even required. Also, need to delete SAMO and include projected requirements for A2M2.

**INCORPORATED:** Yes

**REMARKS:** None

**COMMENT:** Pages IV-5 to IV-6

Curricula materials needs to be updated (does not appear to be current.)

**INCORPORATED:** Yes

**COMMENT:** Page VII-1

Points of contact - should NAMTRAGRU, AMO School, or NAVAVSCOLSCOM be listed?

**INCORPORATED:** Yes

**REMARKS:** None

**COMMENT:** Page A-5

Refers to an AMDO "JQR." No such document exists. An Aviation Maintenance Officer PQS is currently being developed for USN Aviation Maintenance Officers.

**INCORPORATED:** Yes

**REMARKS:** "JQR" has been removed and the new AMO PQS added.

**COMMENT:** Appendices B through I

The career paths do not appear to list appropriate billets.

**INCORPORATED:** Yes

**REMARKS:** Billets have been reviewed and updated.

**COMMENT:** Appendices B through I

The "required training" refers to AMDO School, which is not the correct name; it should be AMO School. Recommend listing the actual course of instruction (either NAMP Indoctrination or NAMP Management).

**INCORPORATED:** Yes

**REMARKS:** None

**COMMENTS / RECOMMENDATIONS ON THE  
AVIATION MAINTENANCE OFFICER  
PROPOSED NAVY TRAINING SYSTEM PLAN**

**COMMENT:** Appendices B through I

Delete all references to SAMO and add A2M2.

**INCORPORATED:** Yes

**REMARKS:** None

**COMMENT:** Appendices B through I

Frequent references to “NAS” should refer to “AIMD,” since AIMDs are separate from NAS now.

**INCORPORATED:** Yes

**REMARKS:** None

**COMMENT:** Appendix B

No O-2 billets at depot level activities.

**INCORPORATED:** Yes

**COMMENTS / RECOMMENDATIONS ON THE  
AVIATION MAINTENANCE OFFICER  
PROPOSED NAVY TRAINING SYSTEM PLAN**

**COMMENT:** Appendix C

Why is Air Operations Officer listed as an LDO maintenance billet?

**INCORPORATED:** Yes

**REMARKS:** Contacted LDO manager and edited as appropriate.

**COMMENT:** Appendix C

Why is VFA Training Officer listed as an LDO maintenance billet?

**INCORPORATED:** Yes

**REMARKS:** Contacted LDO manager and edited as appropriate.

**COMMENT:** Appendix C

Does not list Assistant MO as billet

**INCORPORATED:** Yes

**REMARKS:** None

**COMMENT:** Appendix C

L-class MO should be O-5, not O-4 billet.

**INCORPORATED:** Yes

**REMARKS:** None

**COMMENT:** Appendix C

Why is Supply Officer listed as an LDO maintenance billet?

**INCORPORATED:** Yes

**REMARKS:** Contacted LDO manager and edited as appropriate.

**COMMENT:** Appendix C

What level of Maintenance Training Officer staff?

**INCORPORATED:** Yes

**REMARKS:** None

**COMMENTS / RECOMMENDATIONS ON THE  
AVIATION MAINTENANCE OFFICER  
PROPOSED NAVY TRAINING SYSTEM PLAN**

**COMMENT:** Appendix C

Aren't NAMTRU XO billets for O-4 LDOs?

**INCORPORATED:** Yes

**REMARKS:** Contacted LDO manager and edited as appropriate.

**COMMENT:** Appendix D

Should this career path match that of the 6330 LDO more closely (Appendix C)?

**INCORPORATED:** Yes

**REMARKS:** None

**COMMENT:** Appendices E and F

Some of these billets are too specific, and some do not make sense (VP Reserve Admin?  
NAF Powerplants Officer?)

**INCORPORATED:** Yes

**REMARKS:** None

**COMMENT:** Appendices G, H, and I

USMC experts need to review these career progressions. A quick review by one of my  
USMC instructors indicated incorrect billets listed. For example, an Avionics Officer  
(6302) will not be a MALS Production Control Officer.

**INCORPORATED:** Yes

**REMARKS:** None
